The Discipleship Log

*One register for the whole walk of a people: the date, the name, the level,
and whether you located or recalculated. Find anyone by name; the
number is theirs.*

RYAN BRAITHWAITE · KINGDOM ALIGNMENT LABS

How to Use This Book

One register for all of them, in the order you meet them. Every line is one reading.

- 1 The first time you read a disciple, take the next open line. Write the **date** and their **name**, write the **level** you read them at (L1 through L6), and check **Locate**.
- 2 Every time you read them again, take the next open line the same way and check **Recalculate** instead. Their levels down the register, read in order, are the walk itself.
- 3 Each line carries its own **number**, already printed. To find anyone, scan the Name column; the number beside their name is theirs, and you can keep a disciple's numbers together however you like.
- 4 The level runs from **L1**, life working and not carrying them, down to **L6**, gone quiet inside. Write the one you read. Nothing else is required. The room is a meeting, not a measurement.
